## BIKE IDENTIFICATION & THEFT DETERRENT PROGRAM

YOUR BIKE ISN'T SECURE UNLESS IT'S  
**IDENTIFIABLE**

### IDENTIFICATION

Each book of Ghost Labels has its own unique code, which is registered to the bike owner and you should record it on your Bikelinc profile.

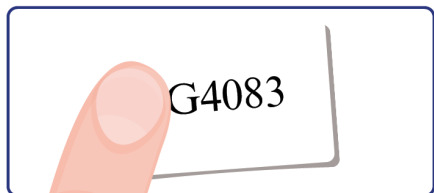

### DETERRENCE

Marking your bike with MicroDOT Ghost Labels and joining Bikelinc, significantly increases the risks to a thief by making ownership traceable. Warning labels show would-be thieves that your bike is marked with MicroDOT Ghost Labels, which deters potential theft.

1 REMOVE a label from booklet

2 PRESS label firmly on a clean, dry & hidden part of your bike

3 PEEL off top layer of label & discard. Repeat up to 20 times on your bike

4 REMEMBER TO REGISTER label number in your Bikelinc profile
